BOB SIMMONDS

# WINTER o 1962

n  
d  
e  
r  
l  
a  
n  
d

Bob Simmonds, director and producer of our first Winter Wonderland in 1951, has completed his ninth ice show, Winter Wonderland 1962. Combining his imagination, experience and drive, he has again produced an amateur show of professional caliber.

At the age of eleven, Bob started his skating career here at Iceland. He has won many honors in skating championships. Later, Bob became a featured skater with the Ice Follies, and is known throughout the country for having the deepest lean in the history of skating. He has also created many original moves, some of which are the Simmonds edge, cross foot jump, cross foot spin and his pivot form spin-reverse.

During a five year absence at Iceland, Bob taught at Berkeley, Lake Arrowhead and Salt Lake City. Now in his 12th year of teaching, he has many pupils who have won championships throughout the country, many are now teaching and some are stars with professional ice shows. Now Bob is building a new young group of future champions, many of whom you will see tonight.
